

"We are raising money not just for the building, but for what happens in the building; not just for ourselves, but for those who need a church like Plymouth; not just for the congregation that gathers today, but for the next generation of Plymouth."

- Brett Younger

February 15, 2022

Dear Plymouth Congregation:

We hope you are having a good start to another blessed and wonderful year. There is much to be thankful for and excited about this year—our congregation continues to grow; we are celebrating our 175th anniversary; and, after much anticipation, we are looking forward to breaking ground this summer on one of the first phases of the *Spirit At Work* capital renovation: the bathroom and floor upgrades to the 75 Hicks Lobby and portions of the Gym.

What's next?

In addition to moving forward with the 75 Hicks and Gym improvements, we are continuing to evaluate the possibilities for the **Hillis Hall** and Sanctuary upgrades. This spring, we look forward to providing the congregation with a presentation on our plans for these, which will both embrace our unique and cherished history and create new opportunities for the future use of the building for generations to come.

Please stay tuned for an announcement of the date and time the presentation will take place.

Your Spirit At Work Pledge

It is because of your generous gifts that we are able to improve the Plymouth campus for those whom we welcome, now and for generations to come. If you have not pledged to the *Spirit At Work* campaign and would like to contribute to Plymouth's legacy, you may do so here: <http://www.plymouthchurch.org/give>

We are grateful for your commitment as stewards of the Plymouth church campus.

Contact Us

Thank you to all the members who have reached out to date following our recurring updates. Your feedback is important us. If at any point you have questions regarding the *Spirit at Work* improvements, please contact:
